JULY HEATH EDUCATION AND WELLNESS PROGRAM—VISUAL ACUITY AND GLAUCOMA SCREENING: Most of us take our eyesight for granted. Our vision is a marvelous and irreplaceable gift. The key to preserving your sight is good eye care and prevention of disease and injury. Glaucoma is the leading cause of blindness in the United States. When diagnosed early, blindness from glaucoma is almost always preventable. Those who are at increased risk for glaucoma are: 1) people over 40 years of age; 2) those with a family history of glaucoma; and 3) those who have sustained an eye injury. GLAUCOMA SCREENING AND VISUAL ACUITY testing (near and distance vision) for all employees will be available on a walk-in basis (no appointment necessary) on the following dates:
